SERIOUSLY REAL-TIME BATTLES IN THE 3D CAMERA. Because capturing the true feel of a gunfight is an important element of any video game, a 3D camera system was used to film the scene of battles that act as a feedback mechanism for the players. Vertex Core technology was also implemented throughout the game. Therefore, 3D environments and graphics were able to be smoothly portrayed with minimal graphics impact to the game.

NEXT-GENERATION QUALITY FOR BATTLE SYSTEMS

The GunCon was designed by using the latest technologies to enhance the battle system of the Guilty Gear franchise.

The GunCon controls the opponent's motions and attacks' attack range, changing the instructions of 3D actions to commands for the game. After the instruction exceeds the range of the GunCon, the player acts as a guide.
